PROJECTS

- **DebugVision – AI Debugging Assistant** [Source Code](#)
 - Developed a VS Code extension for compiler-error analysis and context-aware debugging through an interactive debugging panel.
 - Integrated LLM-based code analysis and prompt engineering to generate error explanations and code suggestions.
- **AI Learning Intelligence System** [Source Code](#)
 - Developed a browser extension and backend APIs to track learning activity across educational platforms and manage study-session data using MongoDB.
 - Implemented AI-powered analytics for topic classification, progress tracking, and personalized learning insights.
- **CI/CD Pipeline Automation** [Source Code](#)
 - Built an automated CI/CD pipeline using GitHub, Jenkins, Maven, SonarQube, and automated testing for continuous integration and code quality validation.
 - Containerized applications with Docker and automated Kubernetes deployments using Argo CD and image updates.

ACHIEVEMENTS

- Secured 1st position in the branch during the 1st semester and was recognized as a VTU topper in the 1st, 3rd, and 5th semesters.
- Participated in technical hackathons and student innovation activities.

LEADERSHIP

- **SoftTechie Club – Secretary** Jan 2025 – Jul 2026
Organized technical events, managed student activities, and coordinated cross-team communication.
- **IEEE Computer Society – Marketing Member** Apr 2024 – Mar 2025
Coordinated technical event promotions, outreach, and student engagement initiatives.
